As always, great job!

Thanks for the ride-along last night. Very informative. The city did a great job keeping it under control and shutting it down on time with minimal fuss.

Equally impressive was the look of the Strand this morning. Nothing but fog left on the street.

Good job everybody

Good Morning-

Belated thanks for getting the work done on our curb. The crew was terrific - the curb is back in place and no longer dangerous - and they put everything back together better than we expected.

Again, thank you.
